

INDORSEMENT

As a Democrat Precinct Committee Officer in Clallam County, I can no longer support Norm Dicks to be our Representative for the 6th Congressional District. He has consistently voted for the funding of the illegal invasion and occupation of Iraq. Dicks has also worked to undermine our Constitution in support of the Patriot Act, FISA legislation, and even co-authored the Homegrown Terrorism Bill of 2007 to spy on American citizens. His ill advised voting record on the Iraq War alone has cost taxpayers of the 6th Congressional District \$1.4 billion to date which is over and above the regular military spending budget.

Paul Richmond's priorities present a clear alternative to the out of control Bush/Cheney economic disaster we now face. Paul supports ending the illegal war and occupation of Iraq and proposes to use such funds for desperately needed domestic programs. As an attorney he is well versed on the U.S. Constitution and unequivocally supports revocation of the Patriot Act and the restoration of our civil liberties.

Given these reasons, I wholeheartedly indorse Paul Richmond to be elected to the seat in the U. S. House of Representatives for the 6th District of the State of Washington and encourage every voter in this District to support his candidacy as well.

William R. Kildall, Ed. D.
